Hi Lorena,

At yesterday's PBID meeting you requested a site map of the Harbor Blvd Roadway Improvement project. The attached shows what this new intersection will look like and really 7th Street will be the 1st thing folks see when exiting the new San Pedro Public Market. Please note that in the near future (soon after this project is complete) the new Town Square will start construction. It's anticipated that when heading down 6th Street you'll either need to make a left or right at Harbor – 6th Street will not go thru as it does right now (it will be a cul-de-sac) – that is where the new Town Square will be. I'm available to attend a meeting to explain this in further detail if you'd like and Alan Johnson probably has more information on this too.

Alan – at the last PBID meeting there was discussion on placing an archway leading into the historic downtown district much like the archways that you can find in the San Diego gas lamp district. The landscape is changing rapidly and so the designer should be aware of what it's going to look like in the not too distant future….

Thanks,
Augie
